Be Respectful of the process we have in place for public comment.

"We will take public comment at the time stated by the agenda. Thank you.“

Start right on time.

The responsibility of chairing the meetings and taking notes should be divided between two people.

1. More information about how UMKC is connected in the community in other areas besides buildings and facilities.

2. Diversity updates

3. Students programming of interests to neighbors

4. Hear of other local institutions that are engaging their neighborhood successfully, i.e., Rockhurst and KCAI. What can be learned.
