RE: Intern/Project Opportunity: Crime Laboratory Video Tour Production

The Criminalistics Laboratory division of the Johnson County Sheriff’s Office is looking for an interested party to assist us in producing a video tour of the laboratory. The final goal of the project is a video presentation suitable for showing to tour groups. The video would allow the presenter to walk a group ‘virtually’ through each laboratory space (nine different laboratories), and highlight the science and capabilities of each discipline (more than 15 unique testing categories) as well as the building itself.

The laboratory is seeking an interested party with knowledge and/or experience in shooting, producing and editing a video. The project will consist of the creation of a short ‘pilot’ and after approval by Sheriff’s Office administration, the full video. This is an unpaid opportunity with a very flexible timescale and hours. The ideal timeframe is completion by the end of the summer, 2015.

Interested parties should submit a cover letter and CV before May 8th to:
