

KOSTER

FOR MISSOURI

The Chris Koster campaign is looking for bright, energetic individuals who want to learn the nuts and bolts of how a campaign works and help elect the Governor of Missouri.

Hours are completely flexible with a target weekly commitment of 21 to 28 hours/week, and the campaign team is a lot of fun. No experience necessary. You will walk out the door at the end of the internship knowing how to run a statewide field program and data operation, as well as having met some really great friends. Responsibilities include data entry, direct voter contact, event logistics and volunteer recruitment, training and management.

Additionally, the campaign is also offering a fellowship program for applicants who are looking to take their involvement with the campaign to the next level. Fellows will be required to have a greater time commitment than interns and will participate in our Field Organizer Training Program, where they will not only learn the basics of campaign field and data work, but will also gain in-depth knowledge of grassroots organizing and targeting and modeling techniques so that they are ready to work on, and eventually run, campaigns of their own in the future.

The Koster for Governor internship and fellowship programs are designed to be an enriching educational experience, where participants will engage in daily field activities, learn from and have access to seasoned campaign staff, and hear from a variety of political guest speakers.

Please fill out the application form at chriskoster.com/intern and a staff member will be in contact with you. If you have any questions, please feel free to email us at missouricampaigninternship2016@gmail.com.
