Notice

This notice is being provided as a result of the filing of an application for permanent alien labor certification for the job opportunity described below. Any person wishing to comment may provide documentary evidence to the Certifying Officer, U.S. Department of Labor; Employment and Training Administration; Office of Foreign Labor Certification; 200 Constitution Avenue NW, Room N-5311; Washington, DC 20210.

Assistant Teaching Professor in Kansas City, Missouri

**Job Duties:** Full-time (benefit eligible) non-tenure track (NTT) faculty position at the rank of Assistant Teaching Professor. Teach four (4) course sections per semester with an enrollment projection of 60 students per section. Duties will include teaching undergraduate and/or graduate courses in the following areas: Algorithms, Applied Probability, Artificial Intelligence, Computer Architecture, Cybersecurity, Data Science Principles, Data Structures, Discrete Structures, Human-Computer Interaction, Machine Learning, Networking, Object-Oriented Programming, Operating Systems, Programming Language Paradigms, Software Engineering.

The successful candidate will be expected to 1) have a strong commitment to quality undergraduate / graduate education; 2) teach courses in the undergraduate / graduate programs; 3) maintain an outstanding record of education and professional leadership; 4) engage in department, school, and/or university service activities appropriate to the position, 5) share a commitment to inclusive teaching and student engagement in a diverse student community; and 6) advance the goals and strategic plan of SSE and UMKC.

**Minimum Requirements:** PhD degree in Computer Science, Computer Engineering or related areas. Strong commitment to quality undergraduate/graduate education. Master’s degree and tested industry experience in Computer Science or related areas to be eligible for an Assistant Teaching Professor, Associate Teaching Professor, or Teaching Professor position and teach at the graduate level. A Teaching Certificate or prior teaching experience in Computer Science or related areas at any level in an accredited university in the USA or elsewhere is advantageous.

Must have proof of legal authority to work in the United States.
