

# Human in the Digital Age

Please join UM System President Mun Choi and UMKC Chancellor Mauli Agrawal, as well as faculty researchers and administrators from across the University of Missouri System, for another in the recent series of **University of Missouri System Research Summits**.

The theme chosen for the UMKC summit is: **Human in the Digital Age**.

As with previous recent research summits (Cybersecurity; Precision Medicine), faculty representatives from each of the four campuses are invited to speak to a chosen theme as a means to stimulate system-wide cooperation and collaboration and to foster innovation around a specific research topic.

---

Presenters and audience members will explore how the digital age has forever changed and impacted our everyday lives and challenged our interpretation of what it means to be human. Presentations will include discussions of:

- Digital humanities
- Technology in teaching/learning
- Computational technologies and the human experience
- Artificial intelligence
- Machine learning
- Smart and connected human environments
- Ethical and legal considerations of the digital age

This dynamic format features 3-4 sets of high-impact, 5-minute, TED Talk-like presentations by faculty members. Each set of talks will be followed by a discussion led by the speakers. There will also be a general discussion at the end of the summit.

University of Missouri-Kansas City | Kansas City, MO 64110 | (816) 235-1000
